***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3-9-06 has been entered.

***Claim Rejections - 35 USC § 102 and 103***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1,5,6,8,10,11 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over DE 19845761, abstract provided.

DE 19845761 teaches a refractory composition, which may be used as a furnace component in oxidizing, neutral and reducing atmospheres and therefor including glass atmospheres. The composition includes 75-95 wt% alumina, 25-5 wt% silica and 0-10 wt% zirconia. The composition includes colloidal silica, see abstract under independent claims. Claim 6 fails to define the setting agent and therefor does not exclude the compositions of the reference.

The claims are considered anticipated or in the alternative the subject matter as a whole would have been obvious to one having ordinary skill in the art at the time of the invention to have selected the overlapping portion of the range disclosed by the prior art because overlapping ranges have been held to be a prima facie case of obvious, see *In re Malagari*, 182 U.S.P.Q 549.

Art Unit: 1755

4. Claims 2,3,7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art of record fails to teach or fairly suggest the claimed alumina, zircon and mullite composition or the setting agent of MgO.

5. Claims 12,14-21 are allowable over the prior art of record.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Karl E. Group whose telephone number is 571-272-1368. The examiner can normally be reached on M-F (6:30-4:00) First Friday Off.
